IN HAWORTH'S NEW BLOCK.

It is said that States Attorney Johns is so busy preparing his cases for court that he has no time to spare in matters relating to the city election.

The republican congressional convention will be held in Clinton to day. Capt. Rowell will be re-nominated for congress, but just who will be named for member of the State Board of Equalization is not known. Mayor Lake and Capt. Emery are warm on the track, but Senator Rogers' congressional aspirations will interfere.

Some of the boys are talking out in "meetin'" about Senator Rogers' proposed dodging of the election next Tuesday. They say that he was one of the principal beneficiaries of the compact of 1882, and should show up handsomely. But they forget that he was then a candidate on the prohibition platform, and he should not be expected to be found in any other than the cold water army next Tuesday. When saloon keepers support prohibitionists against men who do not endorse sumptuary legislation, they must expect to be sold out.

Four or five years ago, in a contest for alderman, the cold water fellows and like-a-glass-of-beer-men, both spent money without stint to carry their point. The cold water chaps were beaten at the game, and have now decided, in the language of Uncle Sammy Tilden, that "reform is necessary." It is said that they won't buy any votes this year, and are not willing that any free citizens shall get any shish money. Two of Pinkerton's men are said to be in the city, in the employ of the "reformers." Squibs wants to know if Corry Johns is standing in with the "purists" in order to have a large number of indictments at the next term of court.

Farmers' Notice. If any farmer needing a check-roller this spring will bring his planter to my shop, six squares north and one square east of Central depot (1036 East Herkimer street), I will attach one of my new check-rollers to it, furnishing everything complete—wires, anchors, etc.—and give him this season's use of it, with the privilege of either returning it to me by the middle of June, or paying about two-thirds the price that check-rollers usually sell for, together with his written opinion of it. I want to put out about ten or twelve check-rollers this way this season. If your planter is not new, it must be in fairly good condition, or I will make it so at a moderate charge.

Henry Cassell, living one mile northeast of city, planted over one hundred acres with one of these check-rollers last season. I will refer to him, or any of his neighbors who saw the machine work, or the corn after it came up. It could hardly have been better. My object in making this offer is to give the machine a good trial this season, on different planters and in different hands. Please see me at the shop or write me before bringing in your planter. An early response will much oblige. Yours truly, ROBERT FARIES.

Ed. Fallon was before "Squire Curtis yesterday on a charge of vagrancy. He was fined three dollars and costs, and in default of payment, was sent to the chain gang.

The Trades' Assembly hall will be held on Monday evening—the 14th inst.—and the boys are sparing no pains to make it one of the most pleasant and enjoyable affairs of the season.

Go to Curtis & Co.'s for reserved seats on Monday morning. Joseph Cook's lecture on the "Seven Modern Wonders of the World" will be given on Thursday evening, April 17th.

Among the persons who called on Henry Ward Beecher at the St. Nicholas yesterday afternoon, were Messrs. James Millikin, James C. Lake, J. R. Race, Dr. J. Brown, Dr. W. L. Watson, Rev. George B. Vossburgh, Senator Jason Rogers, J. R. Mosser, W. T. Wells and Dr. McLean, of Maroa, M. T. Sheppard, of Lexington, and Major Emery of Maroa.

Captain Hartley's benefit at the tabernacle last evening, was very much a success. A good number of young folks were present and skated until a late hour. Goodman's band furnishing music for them. Every person who entered the door received a number calling them to a chance in the drawing for \$250 in gold. Charlie Jones was the lucky person, holding the number 37, which secured for him the prize. Captain Hartley was deserving of a much larger patronage than was bestowed, and he would have received it, had it not been for other amusements in the city.

To Whom It May Concern.

As the public is informed, we sustained a loss by fire on the sixth day of January, 1884, in the burning of our elevator. We were insured in the Commonwealth Mutual Fire Insurance Company, of Decatur, Ill., to the amount of \$2,500. We take pleasure in hereby acknowledging the payment of \$2,487 by said company, being in full of amount of loss claimed by us, and furthermore, in this public manner, to commend said company for the careful manner in which the adjustment of our loss was made, as well as for the manifest disposition of the management of said company to equally protect the interests of said company and its numerous policy holders.

KNIGHT & TINDER.

The coal company secured the services of eleven or more men yesterday, and resumed operations on a small scale. Nearly all the men at work were employed by the day.

Not one of the men who quit last Friday have resumed work, nor have they any intention of doing so. The miners are still waiting to compromise the matter whenever an audience with the company can be secured.

All passenger locomotives on the Bee Line system are to be equipped with steamboat whistles. Eleven already are thus fitted out. While their sound is much pleasanter to the ear of passengers than the ordinary shrieking whistle, they, as well, are less liable to frighten horses on the high ways, which frequently results in serious accidents; neither do they disturb the repose of travelers by trains at night.

A MARVELOUS STORY

SOLD IN TWO LETTERS.

FROM THE SON: "At Cedar St., New York, Oct. 2, 1901."

"Dear Mother: My father resides at (Cedar St., New York). He is a great sufferer from hemorrhoids and the hemorrhoid letter will tell you what a marvelous cure."

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a carbuncle on the wrist, until about five years ago. From a few spots which appeared on the face, it gradually spread so that it covered the entire body. I assure you he was a healthy, robust man, and an object of pity, who began using your medicine. Now, there are few men of his age who enjoy as good health as he does. I could easily testify to this, if I were not so sure of the truth of it. I am, your truly, W. M. FILLIS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of Ayer's Sarsaparilla."

My mother was a very old woman, and she was a great sufferer from hemorrhoids. She was a very healthy, robust woman, and an object of pity, who began using your medicine. Now, there are few women of her age who enjoy as good health as she does. I could easily testify to this, if I were not so sure of the truth of it. I am, your truly, W. M. FILLIS."

Further Testimony in the Jeanette Inquiry—Comptroller Knox—A Proposed Amendment.

The Senate and House Engage in an Indecisive Discussion of Several Canal Bills.

Other News.

THE HENNEPIN CANAL.

WASHINGTON, April 10.—The House Committee on Railways and Canals yesterday agreed to report favorably the Hennepin Canal bill which was introduced at the beginning of the session by Mr. Cullom, of Illinois. It approves the route surveyed by the Secretary of War from Hennepin to Rock Island, and designated in Hennepin Canal. It provides that the canal shall be eighty-five feet wide at the water line and navigable for vessels of at least two hundred and eighty tons burden. It directs the Secretary of War to secure the right of way by agreement, purchase or voluntary conveyance of the owners. If it can be done on reasonable terms, but if not the Secretary is to institute proceedings to condemn such lands as may be necessary for the right of way.

It is also directed to commence work as soon as practicable and within six months after the passage of the act. The sum of \$1,000,000 is appropriated as a fund to commence work.

TALES OF DISSENION ON THE JEANETTE.

Dr. Collins declined to express any opinion yesterday before the Jeanette committee as to mismanagement by the Yang. He declared that the government should not be held responsible for the loss of the ship, but that the loss was due to the negligence of the crew.

WHEAT PROSPECTS IN ILLINOIS.

Promises of a Better Crop than Were Given at This Time Last Year.

SPRINGFIELD, Ill., April 10.—Advisers from over six hundred correspondents of the Illinois Department of Agriculture indicate that the area of growing winter wheat is seven per cent. less than the acreage harvested in 1897. The area sown for 1894 is 2,752,750 acres, 1894-95, 2,622 acres below that of last year. The returns give promise of a better yield to the acre than was anticipated from the observations taken at a corresponding date last year. The Secretary of the Board says the prospects are not as good as in December, owing to the severe weather. He thinks the yield will be less than ninety-six per cent. of an average. In the northern division of the State, where but little winter wheat is raised, the indications are twelve per cent. better than on April 1, 1893. The production of an average yield per acre in the central division, where nearly one-half of the crop is raised, is dependent upon continued favorable weather. In the southern division, where more winter wheat is raised than in all other counties of the State combined, the promise for this season is at a corresponding date last year. The grain in this part of the State has suffered from bad weather. As compared with the indications for previous years upon April 1, the crop this year bids fair to equal 85 per cent. of an average in the State. In 1893 the indications were for 66 per cent., and in 1892 there were promises of 102 per cent.

Committed for Trial.

TORONTO, Can., April 10.—The cases of the four persons accused of attempting to bribe members of the Ontario Government came up Tuesday morning, and all four were committed for trial. He says he was authorized by well-known Michigan lumber dealers to spend large sums to secure favorable legislation, and did not think such action was criminal, as he had spent between \$50,000 to \$100,000 in getting measures through the Wisconsin Legislature. There was no precedent in British cases of bribing a member of parliament, and the judge based his decision on one given by Judge Eldred, of Toronto, in 1896, when he held that bribery of a Cabinet Minister could be punished as a crime.

Y. writes: "My wife and I have been struck by non-residence and would have to give up and go to bed. During the last attack we tried Anker-Pain-Expeller, and its success was wonderful.
